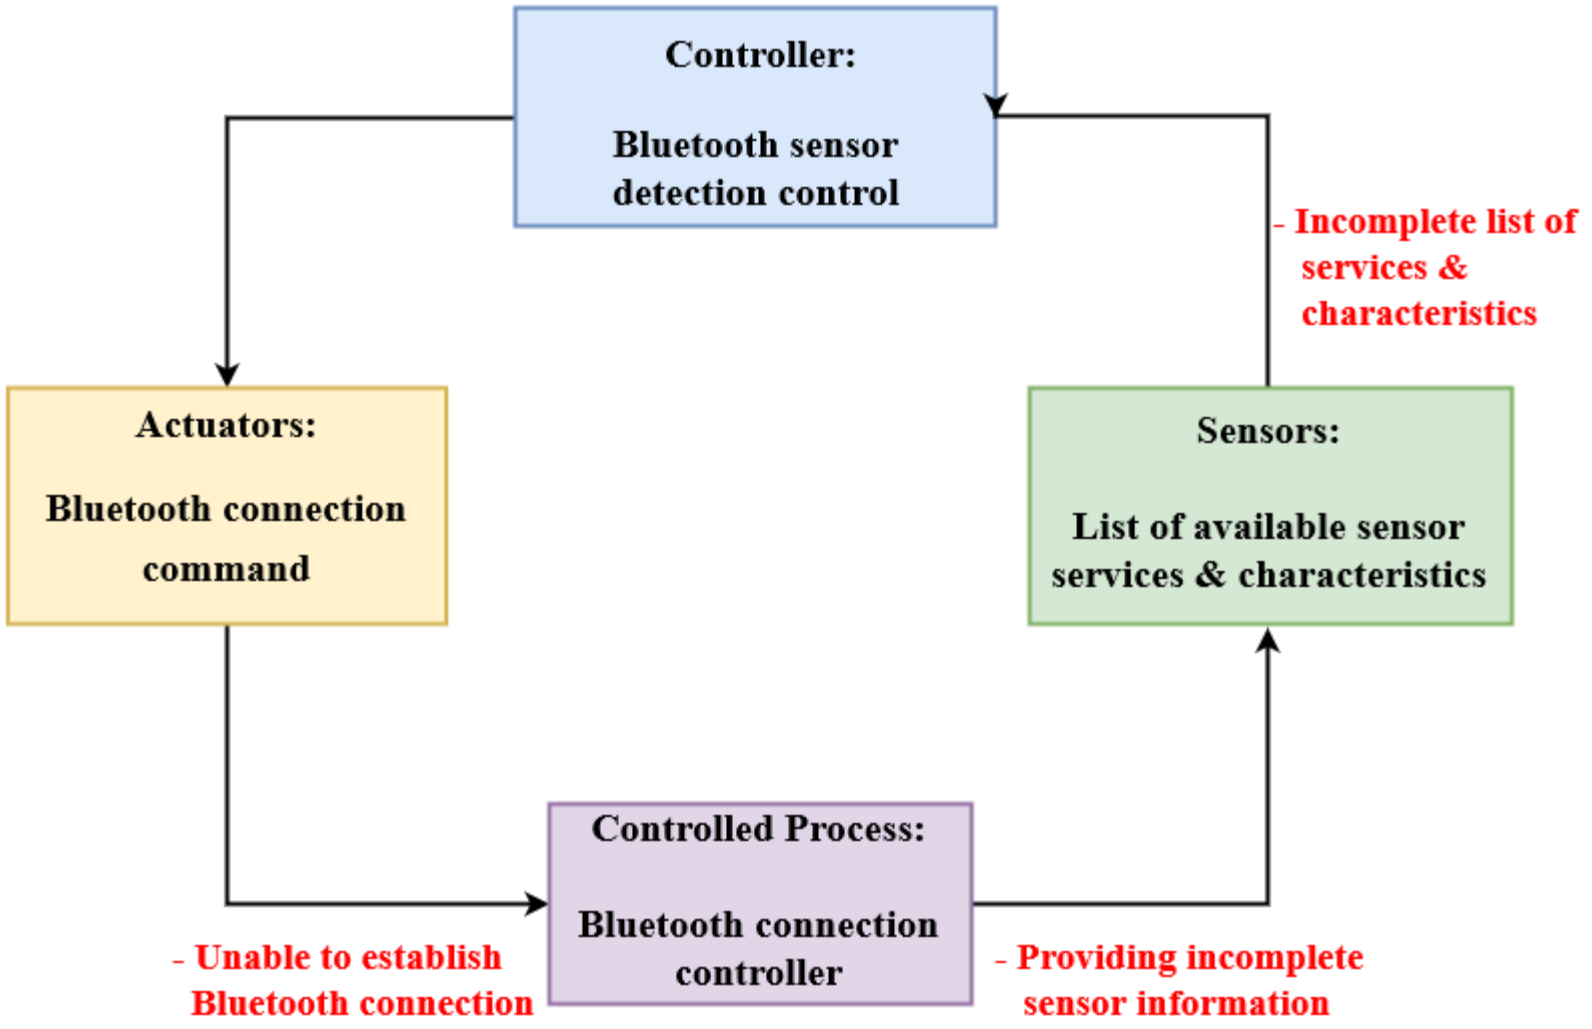
Controller:
Sensor node control
- Sensor node jam
- Incomplete data
- Loss of data
Actuators:
Scan command for Bluetooth sensor properties
Sensors:
Service & Characteristic values of sensors
- Unable to scan for properties
- Sensor not ready for scan
Controlled Process:
Bluetooth sensor detection control
- Unable to detect sensor services & characteristics
- Physical problem with sensor



Controller:
Bluetooth sensor detection control
- Incomplete list of services & characteristics
Actuators:
Bluetooth connection command
Sensors:
List of available sensor services & characteristics
Controlled Process:
Bluetooth connection controller
- Unable to establish Bluetooth connection
- Providing incomplete sensor information
